detachment of his men, who had been acting as a pioneer cross, also formed and prepared to receive the enemy. The battery was soon engaged, and discharged shot and shell for nearly two hours, until nearly all its ammunitien had been expended.

The firing was spirited, and there is no doubt of its efficiency. Unable, however, to withstand such overwhelming force, the order was given to retire, which was done, and the entire column moved over the Shenandeah giver; the retreat being covered by a company of the Fifth New York cavalry, about eighty strong. The Herald declined to believe the fall, but admits that, if true, it would be a signal triumph for the North.

The Morning Post also doubts it, and thinks, if confirmed, it will not seriously affect the fortunes of either party, although a serious loss to the South. It says the utter hopelessness of the struggle is more apparent at each successive stage.

The Daily News says there is no good reason for doubting the capture and regards

East TENNESSEE.—An intelligent gentleman, direct from East Tennessee, arrived man, direct from East Tennessee, arrived at Lexington, on Thursday last, The Observer and Reporter says he represents affairs in that locality as being in a very unhappy condition. He states that the whole country there is ruled by an armed mob, and the Union men and Secessionists are alike in most cases. The gentleman who gives this information left his home, in East Tennessee, three weeks since, in consequence of the oppression visited upon Union men. He states that a Methodist olergyman, the Rev. Mr. Rogers, and a Baptist clergyman, Mr. Charles Lones, together with other prominent men of his neighborhood, had been arrested and thrust into prison, and to avoid a like fate. He was on his way to Cincinnati, whence he intended, at a suits able time, to proceed by way of Louisville and Nashville, again to his deserted home. He came by way of Cumberland Ford, and contrary to the "grapevine" dispatches we have had in the last few days with reference to the fight at Cumberland Gap, he says no such thing has occurred, though there certainly was a prospect of one, as our men seemed to be well prepared and eager for it. We have heard similar complaints from gentlemen of integrity and standing, who reside in Bowlinggreen. Col. Dunham, instead of winning the respect and confidence of the loyal people there, to-day would not be trusted by some of them. This cendition of things should not exist.

AN HONEST BROTHER. - A recent prayermeeting at Hartford was surprised, and a little amused, by the following remarks from an honest hearted brother in regard to the war: "It is all very well, brethren, to hold out hopes, and to present the brightest side; but we are getting some bad news, as well as some that is good. Here, for instance, I read in the paper to day, that Besuregard, who has always some deep, infernal plot at work, has issued an order yes, an army order—that every woman and child in Corinth should be evacuated before Saturday night!"

DESCRIPTION OF THE "LOUISVILLE REAPER."

THIS MACHINE WEIGHS 800 POUNDS, CUTS 6½ FEET WIDE, AND FROM 4 TO 24 INCHES HIGH. 17 IS OF LIGHT DRAFT, AND WITHOUT APPARENT side-draft. It will cut, under favorable circumstances, from 15 to 25 acres per day. There is no driver's seat an the Machine this late.

LOUISVILLE

DESCRIPTION OF THE "LOUISVILLE MOWER."

THIS MACHINE IS MADE ALMOST ENTIRELY OF IRON; IT IS EXCEEDINGLY COMPACT AND SIMPLE, AND STRONG REYOND ANY POSSIBILITY OF breaking. It cuts a swath 4 feet 4 inches wide, and cuts even and smooth in all kinds of grass. It has a lever for raising the finger-bar from the ground for passing obtructions, or for moving from field to field. It is arranged to throw itself out of gear when backing, and is convenient to handle in every respect. It weighs about 600 punds, which is heavier than several of the newly invented Machines, but none too heavy, we think, to stand the rough and careless usage to which all Mowers are ablect.

The tongue is loose, and there is no weight on the horses' neck. PRICE...

Office of Kentucky Agricultural Works, Market Street, between Preston and Jackson. We commenced the manufacture of Harvesters last season, with the belief that we could furnish Machines better suited to the wants of our Farmers than any liteady introduced. Our plan is to make separate, not combined, Machines; when made for the special purpose, they can be simple, cheap, and durable, while combines her are necessarily complex and costly, and generally, after one season's use, out of order. We made but faw Machines for last barvest, but those, so far as heard from her formed well, as the certificates which we offer in our descriptive circular, from those who have had experience with Harvesters, will show.
